## Finger Saver Front & Back

Prevents fingers being trapped in a gap between the frame and the rear edge of the door. Extremely durable and maintenance free. Impact resistant, 10 colours ex-stock. Fits most door types. Wipe clean finish.

Finger Saver is a door safety accident prevention product that blocks the cavity formed between the edge of the door and door frame and prevents fingers entering the cavity by means of a folding finger safety device and also acts as a secondary draught excluder.

Once fitted it ensures that fingers are safe from painful finger trapping injuries. Finger Saver can be fitted to most types of doors including wood, metal and UPVC.

Extremely simple to install and has a long life expectancy and can be easily removed and refitted for door painting. Doors are used everyday by everybody but they are potentially dangerous and according to ROSPA there are over 30,000 finger injuries every year. Teachers, parents, and carers have become increasingly aware of the danger of children trapping their fingers in closing doors and to avoid accidents recent legislation BS7036 Part 4: item 7.1 recommends "the use of a Finger Saver that either fills the finger trap or minimises the gap so as not to create a finger trap."

A must for every Home, Commercial & Industrial Residence. For total protection from finger trapping injuries in doors purchase the Finger Saver set.

**Size:** 1980mm Ex-Stock, longer lengths P.O.A.

**Availability:** Brown, White, Red, Black, Cream, Grey, Blue, Teak, Beech and Beige. Available to order in any quantity.

## Finger Keeper Commercial & Finger Keeper Commercial Rearguard

Every year, according to ROSPA, over 30,000 children are injured in the UK as a result of trapping their fingers in doors. Finger Keeper is an accident prevention product. To prevent the trapping of fingers in doors and many types of external gaps.

The Finger Keeper device prevents finger trapping accidents by totally covering the gap that is created on the hinge or the rear side of a door when it is in the open position. The devices can be fitted to most types of doors including wood, metal and UPVC, swing pivot and concertina type doors which open to 160 degrees.

The devices are considered to be neat and unobtrusive. The product is extremely simple to install and has a long life expectancy and can be easily removed and refitted, no glue or nails required. 10 colours available. Use rearguard in conjunction with the Finger Keeper, the risk of finger trapping accidents is totally eliminated, thus making your doors 100% safe. Finger Keeper and Finger Keeper rear hinge guard are manufactured in the EU, meeting the highest quality standard in compliance with ISO 9001:2008.

## Finger Defender

Prevents fingers being trapped in a gap between the frame and the rear edge of door. Acts as a light door closing mechanism. Extremely durable and maintenance free. Tested to over 1 million open & closing cycles. Fits any door up to 180° opening. Impact resistant, aluminium housing can be colour coated to any RAL number.

Doors are used everyday by everybody but they are potentially dangerous and according to ROSPA there are over 30,000 finger injuries every year. Teachers, parents, and carers have become increasingly aware of the danger of children trapping their fingers in closing doors and to avoid accidents recent legislation BS7036 Part 4: item 7.1 recommends the use of a finger defender that either fills the finger trap or minimises the gap so as not to create a finger trap. Astro Finger Defender is a high quality, resilient blind that prevents fingers entering the cavity formed between the edge of the door and door frame. The blind is mounted in a robust aluminium housing unlike a concertina style blind, which is constantly exposed and can suffer damage as a result.

**Colours:** Silver Anodised Finish, Dark Bronze or White  
Colour coated to any Ral Colour. Blind black only.

**Lengths:** 1925mm

**Availability:** to order in any quantity.

## Finger Protecta

- Extremely durable and maintenance free
- Tested to over 1 million open & closing cycles
- Fits any door up to 180° opening
- Suitable for Automatic Doors
- Suitable for most single or double-action doors

Finger Protecta is a high quality, resilient blind that prevents fingers entering the cavity formed between the edge of the door and door frame. The blind is mounted in a robust aluminium housing unlike a concertina style blind, which is constantly exposed and can suffer damage as a result. A robust housing protects Astro Finger Protecta when not in use. Independently tested to over 1 million opening & closing cycles and prevents fingers entering the cavity formed between the door and the frame by means of an inflammable blind, which opens and closes with the action of the door.

**Colours:** Silver Anodised Finish, Dark Bronze or White

**Lengths:** 1925mm

**Availability:** to order in any quantity.
